Product Description

Generac 8026 GB2000 Portable Power Station

GENERAC 8026 GB2000 PORTABLE POWER STATION FEATURES:

- The all-new **Generac 8026 GB2000 Portable Power Station** is powered by a Li-ion NMC battery and generates 2106Wh.
- This solar generator produces 3200 peak watts and 1600 running watts. To get 6400 Watts of power you can connect two units using a paralleling kit.
- This model offers versatile recharging options and supports input from wall outlets, solar, automobile or generator.
- When recharging from a wall outlet, it reaches 80 percent charge level in only 2.1 hours. It supports multiple sources of combined charging inputs that result in even faster recharge times.
- Solar panels can be used for recharging and are sold separately. The built-in MPPT Controller allows for fast solar charging.
- The AC Wall Charger takes in 120VAC 60Hz (450W Max) of power while the DC / Solar Charger takes 10-28VDC 30A (468W Max).
- This unit features integrated AC and 12V DC outlets, USB-A and USB-C ports and a 15W wireless charging pad.
- Compatible devices can be charged using the 15W wireless charging pad. Just place your Qi-enabled devices such as cell phones, tablets, headsets, and wireless earbuds on the pad and charging begins on contact.
- Available accessories include 200W and 450W charge enhancers, 30A paralleling kit, and 100W Solar Panels. Double the available power by using the paralleling kit.
- The large 4.7" multi-color display shows the charge level, runtime, and other key information at a glance.
- The GB2000 incorporates safety features such as high and low-temperature protection, over-voltage, under-voltage and short circuit protection.
- This solar generator includes a free AC charge cord, car charger cord, and solar adapter cord.
- The Generac GB2000 Portable Power Station is backed by a 3-year limited residential and 1-year limited

commercial warranty.
